- [Adding Recipes](#)

Adding Recipes

1. Navigate to the correct section or create one if necessary by adding a book or chapter
2. A book contains a type of recipes (mains with chicken, types of dessert, ...). Use chapters for more sub-categories if required
3. Add a new page using the action on the right hand side

5. Load the recipe template by clicking the circled button and selecting the **Recipe** option
6. Follow the provided template, adding an image on top by copy-pasting or dragging it from any source
7. Delete the notes section if not used
